ACE Tracker commands

Key(s) Parameter Value
[1]+[A] VCA Attack 0-3F
[1]+[D] VCA Decay 0-3F
[1]+[S] VCA Sustain 0-3F
[1]+[R] VCA Release 0-3F

[2]+[A] VCF Attack 0-3F
[2]+[D] VCF Decay 0-3F
[2]+[S] VCF Sustain 0-3F
[2]+[R] VCF Release 0-3F
[2]+[C] VCF Cutoff 0-3F
[2]+[E] VCF Env. Depth 0-3F
[2]+[O] VCF resOnance 0-3F

[3]+[F] LFO Freq. 0-3F
[3]+[D] LFO Depth 0-3F

[P] Pan 0-3F (0 is left 3F is right, 20 is middle)

[N] Portamento Note 0-FF (number of lines to slide between the two notes)

00 C-3 A1 --- -- Example that slides from C-3 to C-4 in two pattern lines.
(Slide is finished when we reach pattern line 3)
01 C-4 -- P02 --

[U] Portamento Up 0-F and 0-F where the first value defines number of semi notes and the second number of pattern lines.
[D] Portamento Down 0-F and 0-F where the first value defines number of semi notes and the second number of pattern lines.

00 C-3 A1 U22 -- Example that slides from C-3 to D-3 in two pattern lines.
(Slide is finished when we reach pattern line 2)

[J] Jump to position 0-FF

To set tempo, just set a number without a command:

00 C-3 A1 -70 -- Sets tempo to 70
(70 is just a number - not related to any BPM or so)
